2 Minutes of 11<sup>th</sup> APEX committee meeting of AMRUT 2.0 held on 23.09.2024

3 Letter No. SMMU/81/2022-UP1-01 dated 05.10.2024 of the Mission Director, AMRUT

### ORDER

As per the minutes read as 1<sup>st</sup> paper above, the 9<sup>th</sup> State Level High Powered Steering Committee of AMRUT 2.0 has approved 72 water supply projects under SWAP 3 of AMRUT 2.0 for a project cost of 583.166 Cr. (CAPEX-552.480 Cr., OPEX-30.686 Cr.) CA-₹ 249 Cr., State Share- 209.97 Cr. and ULB share- 124.20 Cr., as per the available allocated Central Assistance and based on the importance of the project.

2. The Committee has accorded, in principle, sanction for issuing administrative approvals for the approved SWAP 3 proposals that have available land and feasibility confirmed by the Managing Director of KWA and with Council approvals. This excludes the 24x7 proposals and the Micro Water Supply Scheme. The Committee has also decided that all approvals are subject to the consent of the APEX Committee of AMRUT 2.0.

3. The 9<sup>th</sup> SHPSC has observed that the excess amount required for the approved SWAP-3 (72 Projects) could be adjusted by utilizing unspent funds from the water supply sector of Tranches 1 and 2. However, the Committee decided that the State would cover the additional costs over and above the allocated fund. The Committee has authorized and empowered

the State Mission Director to submit Tranche 3 to the Apex Committee, AMRUT 2.0, MoHUA for approval.

department. District Officer should also make sure that the payment is made only as per the actual quantity and measurement of each item.

District Officer should also ensure the following

1. As implementation of the water treatment plant is a new project undertaken by the department, the District officer should take special care to ensure that the execution of the project should be useful to the public.
2. The contractor/agencies undertaking such work should ensure supply of pure drinking water for a period of one year from the date of commissioning.
3. The District Officer should take necessary steps for collecting the sample of treated water periodically (minimum 6 visits in a year) and tested in the department lab for ensuring the quality and should be recorded in a register maintained in the office.
4. The ongoing management and operation of drinking water scheme implemented by the department is usually entrusted to the beneficiary committee. Hence the Convener of the beneficiary committee of the respective drinking water scheme should be trained in operating the plant by the implementing agency.
5. The operational report of the plant executed by the department, should be submitted before the Superintending Engineer, once in three months.
6. Only 80% payment of the work order amount shall be released on completion of the plant operation and the balance 20% should be released only after verifying the performance of the contractor/agency during the AMC period.
7. The implementation of the water treatment plant and its operation is different from the routine activities of the department. This type of the water treatment plant is usually implemented in the state of Kerala in Government sector by the Kerala Water Authority. Hence execution of this type of work should be through contractor/agency having contractor license and experience certificate in execution of such plants issued from KWA.

The expenditure in this regard can be met from the budget provision under the Head of account “2702 -02 -103 -99 Ground Water Based Drinking Water Scheme (P)” for the financial year 2024-25.
